

SUMMER INTERNSHIP PROGRAM

NOW RECRUITING HIGH SCHOOL INTERNS!

The Computer History Museum's summer internship gives students entering 10th through 12th grade the opportunity to research, collaborate, and educate. Interns will explore the Museum's collection to uncover key stories and artifacts in the history of innovation, and work together to bring these stories to life for museum visitors. As members of CHM's education team, interns will play a crucial role as they help visitors of all ages to engage and make personal connections to the Museum.

INTERN ROLE:

Throughout the summer, interns will alternate between three roles: Gallery Interpreter, Family Tour Docent and Exploration Station Guide. Gallery Interpreters will lead discussions in the Museum's two main exhibitions, *Revolution: The First 2000 Years of Computing* and *Make Software: Change the World!* Interns will encourage visitors to ask questions and consider the ongoing impact and implications of computer history on our present and future. Interns will also develop tours appropriate for young Museum visitors and intergenerational audiences, then lead Family Tours throughout the summer. As Exploration Station Guides, interns will manage an interactive station in the lobby with genuine artifacts from computer history. They will use these artifacts to help visitors see and experience the technology that led to today's innovations.

COMMITMENT:

The internship takes place between June 14th and August 12th on Wednesdays, Fridays, and Saturdays. The schedule for each day is 10AM-4PM. A minimum of 20 volunteer hours per month on scheduled days is required.

ELIGIBILITY:

This internship is open to all high school students entering 10th through 12th grade. Previous experience working with kids in an education setting is preferred, but not required. Ideal candidates will enjoy communicating with others, working collaboratively, and learning new skills. The Computer History Museum values diversity and is committed to making this opportunity available to students from all socioeconomic and cultural backgrounds.

APPLICATION PROCESS:

Please fill out the application on our website to be considered for the internship:
computerhistory.org/volunteers/

Application closes Tuesday, May 2nd.

Select candidates will be asked to interview at the Museum between May 9th and May 26th.
