The Education section needs to be completed next, which is located on the Common App tab

It is important that you release your information on the FERPA page. Waiving your rights lets colleges know that you do not intend to read your recommendation, which helps reassure colleges that the letters are candid and truthful. Read the choices carefully.

X Release Authorization

Instructions

The next screen will ask you two important questions about your release of and access to your educational records under FERPA, the Family Educational Rights and Privacy Act. Since FERPA is a complex law, we want to provide some key information before you respond. We encourage you to learn about FERPA by <u>reading our FAQ</u>. We also suggest discussing FERPA with your counselor, parent, guardian, or other school official to be better informed about your rights.

1. How does FERPA relate to your college application?

- FERPA regulates the privacy of student education records, which could include your application to the college where you enroll. FERPA also gives you the right to review confidential letters of recommendation provided as part of that application after you enroll.
- 2. In a moment, you'll be asked if you want to waive the right to review confidential letters of recommendation. What should you know about this waiver?
 - Waiving your right lets colleges know that you do not intend to read your recommendations, which helps reassure colleges that the letters are candid and truthful.
 - Some recommenders may decline to write a letter for you if you do not waive your rights. Check with your counselor or teachers to see if any of them follow such a policy.

3. Still unsure how to respond?

 That's OK. Many students are. Before you move on, take a moment to discuss your decision with your counselor, another school official, or your parent/legal guardian. For more information about FERPA, visit the <u>Help Center</u>.

I have read and understood the FERPA Release Authorization explanation above.*
